

RESPONSEWARE FOR ANDROID USER GUIDE

The ResponseWare app turns a participant's web-enabled mobile device or tablet into a virtual clicker. Participants are able to respond to polling questions using a Wi-Fi or data connection.

ResponseWare allows the user to respond to multiple styles of questions, such as multiple-choice, alphanumeric, multiple response and essay questions. Questions and answer choices are displayed on the web-enabled device while polling is open. ResponseWare is compatible with TurningPoint 5 and TurningPoint Cloud.

Technical Requirements

The following technical requirements are required for ResponseWare to properly function:

- Android smartphones or tablets with OS 4.1 or higher

NOTE

Android users with firmware versions 4.0 - 4.0.4 must access ResponseWare via the Chrome browser. See the ResponseWare Web for Participants User Guide.

- Wi-Fi connection (recommended for optimal performance) or data connection
- TurningPoint 5 or higher
- TurningPoint Cloud

WARNING

You may be charged by your wireless provider if you do not have an unlimited data plan. Turning Technologies is NOT responsible for any cellular usage charges.

ResponseWare and Turning Account

A Turning Account may be required to use ResponseWare. A Turning Account is a free account that provides a unique identifier for each user and can be tied to all response devices, including ResponseWare. Instructors and classrooms using TurningPoint Cloud will require a Turning Account License to register response devices for courses and to receive credit in class. The Turning Account License is available for purchase from the Turning Technologies Student Store.

WARNING

If the presenter is using TurningPoint Cloud, a Turning Account license is mandatory. If you do not purchase a Turning Account license, your score will show as an asterisk in all TurningPoint Cloud participant reports. Furthermore, your score will export as "0" to an Excel workbook and will not be exported to an LMS.

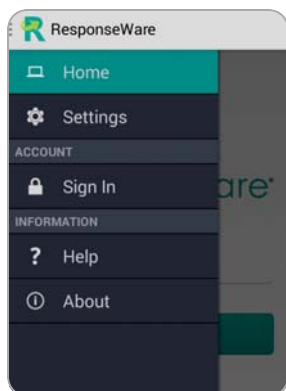

NOTE

A Turning Account license may also be required to be able to respond to questions from TurningPoint 5 and TurningPoint Cloud.

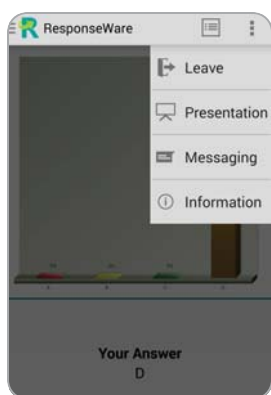

For more information about creating and managing a Turning Account, see the Turning Account User Guide from the Turning Technologies website.

ResponseWare App Options

Tap the **Navigation Drawer**  icon in the upper left corner to display your options.

Home	Select Home to return to the close the Navigation Drawer.

Using the ResponseWare App

This section covers using the ResponseWare app for Android.

Logging into a ResponseWare Session

Responding to Multiple Choice Polling Questions

Responding to Short Answer, Numeric or Essay Questions

Responding to Multiple Response Questions

Responding to Moment to Moment Questions

Messaging the Presenter and the Group

Logging into a ResponseWare Session

Most presenters require participants to be signed into a Turning Account. Alternatively, presenters may allow participants to sign in as guests.

IMPORTANT

Participants can only join one session at a time.

- 1 Open **ResponseWare** on your Android device.

NOTE

If a Turning Account is not required to submit responses, skip to Step 4.

- 2 Tap the **Navigation Drawer**  and select **Sign In**.

TIP

To prevent your phone or tablet from locking during a presentation, tap the **Navigation Drawer** , select **Settings** and tap the check box labeled **Keep Device Awake**.

- 3 Enter the **Email** and **Password** associated with your Turning Account and tap **Sign In**.

TIP

To change your password or create a new account, tap **Forgot your password?** or **Create an account**.

- 4 Enter the **Session ID** provided by the presenter in the *Enter Session ID* field.
- 5 Tap **Join Session**.
- 6 If prompted, enter additional information, such as first and last name, email address, or User ID. Required information must be entered.

NOTE

User ID may refer to a Student ID, section number or any other identification required by the presenter.

- 7 Tap **Submit**.
The first question appears on-screen after the presenter opens polling.
- 8 Tap the button that corresponds to your answer choice.
The results appear after polling is closed.

Responding to Multiple Choice Polling Questions

- 1 When polling is open, the question and answer choices are displayed.

- 2 Tap the **number** or **letter** that corresponds to the answer choice(s).

NOTE

Answer selections can be changed while polling is open and the question is not set to only accept your first response.

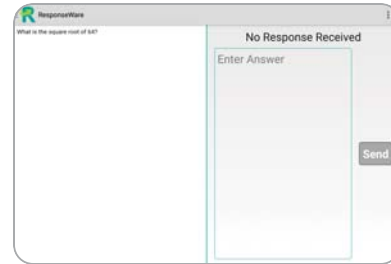

After polling is closed, the results are displayed.

- 3 To view the question, tap the **Question View**  icon in the upper right of the screen.
- 4 To return to the chart, tap the **Chart View**  icon in the upper right of the screen.

Responding to Short Answer, Numeric or Essay Questions

- 1 When polling is open, the question is displayed.
- 2 Tap the **Enter Answer** field next to **Send**.
The *On-screen Keyboard* is displayed.

- 3 Enter a response by typing your answer.

NOTE

Numeric Response questions only accept numbers, one decimal point, and +/- value at the beginning of an answer.

- 4 Tap **Send**.

If your answer was successfully sent, the message *Response Received* is displayed.

NOTE

Answers may be edited while polling is open and the question is not set to only accept your first response.

When polling is closed, your answer is displayed.

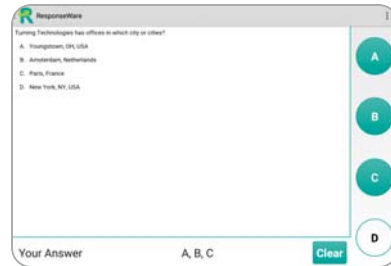

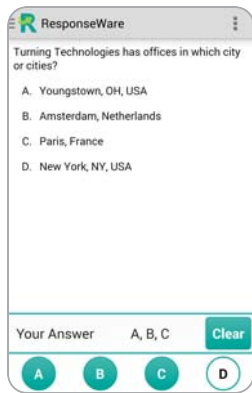

Responding to Multiple Response Questions

Multiple Response questions allow participants to send more than one response to a question.

- 1 When polling is open, the question and answer choices are displayed.
- 2 Tap the **number(s)** or **letter(s)** that correspond to the answer choices.

NOTE

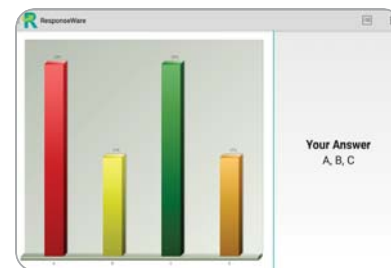

The presenter may have enabled to allow duplicate answers, which you are permitted to select the same answer choice more than once.

NOTE

Answer selections can be changed while polling is open.

After polling is closed, the results are displayed.

- 3 To view the question, tap the **Question View**  icon in the upper right of the screen.
- 4 To return to the chart, tap the **Chart View**  icon in the upper right of the screen.

Responding to Moment to Moment Questions

Moment to Moment questions are used to track the on going opinions of participants over a period of time. Moment to Moment questions display a scale from 1 to 5.

- 1 Tap the number **1 (minimum)** to **5 (maximum)** that corresponds to your rating of the current question.
- 2 Repeat step 1 to change your rating of the current question.

NOTE

ResponseWare does not display Moment to Moment results. Refer to the presenter's screen to view results.

Messaging the Presenter and the Group

Participants can send questions or comments to the presenter via the Messaging icon. The presenter may enable an option that allows for participants to message the entire group including the presenter.

NOTE

If you have a message, an alert badge is displayed next to the **Menu**  icon in the upper right corner.

- 1 Tap the **Menu**  icon in the upper right corner and select **Messaging**.
- 2 Tap **Enter Message** field.
The *On-screen Keyboard* is displayed.
- 3 Enter a **question** or **comment** for the presenter or group.
- 4 Tap the **Presenter**  icon to send the question or comment to the presenter only.

Alternatively, tap the **Group**  icon to send the question or comment to the group, including the presenter.

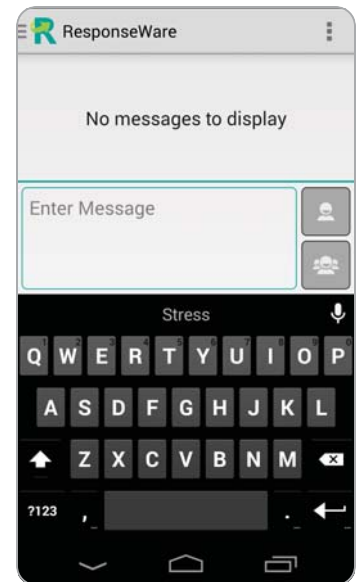

The sent message is displayed in blue.

- 5 Tap the **Menu**  icon in the upper right corner and select **Presentation** to return to the current question.

NOTE

To minimize the keyboard, tap the back button.

FREQUENTLY ASKED QUESTIONS

Setting Up ResponseWare

Where can I download the app for my smartphone or tablet?

Search for *ResponseWare* in the Google™ Play Store.

How much does the app cost?

The app is free. However, a licensed account may be required to participate in class.

How do I verify that I have the most current version of the ResponseWare app?

In the Google Play Store, tap the **Menu** icon and select **My Apps**. Tap **ResponseWare** and if available, select **Update**.

If no update is available, the ResponseWare app is the most current version.

I downloaded the app. Where do I create an account to sign in?

Tap the **Navigation Drawer** icon in the upper left corner of the *Home* screen and select **Sign In**. Tap **Create an account**.

Alternatively, go to <https://account.turningtechnologies.com> and sign up for a Turning Account.

Why do I need a Turning Account? What is a Turning Account?

A Turning Account is a unique identifier that is used to tie together all software accounts and response devices. Turning Accounts may be required for use with ResponseWare.

Do I need a Turning Account license?

A Turning Account license is required for responses from response devices or ResponseWare to be tracked and used in TurningPoint Cloud and Learning Management Systems (LMS).

Where do I buy a Turning Account license code?

Create a Turning Account prior to purchasing the license code. Go to <https://account.turningtechnologies.com> and sign in. Select **Licenses** from the left menu. Click the **online student store** button to be redirected to the Turning Technologies Student Store. Select a Turning Account License or a bundle that includes a license. **Checkout**. The license will be automatically added to your Turning Account.

How do I add a license to my account?

Go to <https://account.turningtechnologies.com/> and sign in. Select **Licenses**. Below *Redeem License Code*, enter your code and click **Redeem**.

What is my User ID?

User ID can refer to a Student ID, section number or any other identification required by the presenter.

How do I prevent my phone/tablet from falling asleep during class?

To prevent your phone or tablet from locking during a presentation, tap the **Navigation Drawer** icon, select *Settings* and tap the button next to **Keep Device Awake**.

Using ResponseWare

What is my Session ID?

The **Session ID** is a unique identification number provided by the presenter that allows participants to join the current session.

Why are my options grayed out?/Why can't I change my answer?

Answers can only be changed while polling is open and the presenter does not have a setting enabled that allows only first responses submitted.

Why am I unable to message the presenter or group?

The presenter has disabled the messaging function. The presenter can choose to allow you to message the presenter only or the presenter and the group or to disable messaging entirely.
